Re: ANPR - Bunk beds

To Whom It May Concern:

I am writing in regard to the advanced notice of rule making pertaining to bunk beds. I truly feel there should be a mandatory standard in the design and construction of bunk beds.

If one child dies due to unsafe bunk bed design and manufacture this questions whether voluntary standards in the industry are sufficient to protect our children. Due to the fact that there were more than 45 fatalities and over 100,000 injuries from 1990 to 1995, I feel that is overwhelming evidence that mandatory standards must be passed to ensure that this tragedy does not strike another American family.

Very Truly Yours,

BA Sparrow

Re: ANPR - Bunk beds

To Whom It May Concern:

I am writing in regard to the advanced notice of rule making pertaining to bunk beds. I truly feel there should be a mandatory standard in the design and construction of bunk beds.

If one child dies due to unsafe bunk bed design and manufacture this questions whether voluntary standards in the industry are sufficient to protect our children. Due to the fact that there were more than 45 fatalities and over 100,000 injuries from 1990 to 1995, I feel that is overwhelming evidence that mandatory standards **must** be passed to ensure that this tragedy does not strike another American family.

Very Truly Yours,

Helene F. Borkert
